HUSNAIN RAZA

Agentic AI Expert | Full Stack Developer

+92 313-7202227 • Lahore, Pakistan • meharraza371@gmail.com • github.com/MeharRaza

ABOUT

Software Engineering student and Agentic AI & Automation Engineer with hands-on experience designing intelligent workflow automations using n8n and LLM APIs. Skilled in building full-stack web applications with Angular, Python, and PostgreSQL, with strong expertise in REST API integration and cloud-based deployment.

INTERNSHIPS & CERTIFICATIONS

Organization	Domain	Type
Asian Solution Private Limited	Web Development & AI Workflow Automation	Onsite
Apexcify Technologies	Full Stack Web Development	Remote
Tech 7	n8n Workflow Automation	Onsite

KEY PROJECTS

Autoposter.AI | Social MPublishing Platform **2026**

Full Stack / OAuth 2.0 | ASP.NET Core | n8n | Open AI API

- Developed a full-stack onboarding and automated publishing solution integrating LinkedIn OAuth 2.0, ASP.NET Core, and n8n workflow automation.
- Built secure client authorization pipelines with encrypted token handling and real-time webhook event processing.
- Integrated OpenAI LLM APIs to automate customized content generation and scheduled distribution across client profiles, drastically cutting manual onboarding and posting overhead.

- Managed and maintained Asian Solution's social media presence, handling content planning and publishing to strengthen brand visibility and audience engagement.
- Live at : autoposter.asiansol.com

MediSoft Pro – Pharmacy Management System **2026**

Full Stack / Pharmacy POS

- Built an enterprise-grade pharmacy management solution processing 3000+ sale transactions and managing 2000+ products with FIFO inventory control.
- Developed Fast Billing POS system with sub-second response times, automated batch expiry monitoring, and profit margin calculations.
- Implemented comprehensive reporting suite for sales, purchases, profit/loss analysis, and stock valuation with real-time data synchronization.

Portfolio Website – Personal Developer Portfolio **2025**

Full Stack | Angular | Deployed on Github

- Built a full-stack personal portfolio website using Angular to showcase projects, skills, and professional experience.
- Responsive design with dynamic routing, smooth animations, and REST API integration for contact functionality.
- Live at: https://muhammadhusnainraza.tech

EDUCATION

BS Software Engineering | Superior University Lahore — 2024 – Present
CGPA: 3.99 | Data Structures & Algorithms, Database, Web Development, APIs

Intermediate (ICS) | Punjab College Raiwind — 2022 – 2024
Computer, Physics, Mathematics

TECHNICAL SKILLS

Frontend: Angular • TypeScript • HTML5 • Tailwind CSS
Backend: Python • Node.js • FastAPI • REST APIs
Database: PostgreSQL • SQLite • SQL
Agentic AI Automation: n8n • AI APIs • Workflow Orchestration • Webhooks
Tools: Git • GitHub • Railway • AWS basics • Vercel
Other: CCTV GuardAI • CI/CD • Docker basics
IDE: VS Code • PyCharm • Postman
